DEPARTMENT OF ADMINISTRATION

DIRECTOR'S OFFICE

TED SCHWINDEN, GOVERNOR

MITCHELL BUILDING

STATE OF MONTANA

(406) 444-2032

HELENA, MONTANA 59620

October 30, 1987

To the Citizens, Governor and Members of the Legislature of the State of Montana:

In accordance with Section 17-2-110, Montana Code Annotated, I hereby transmit the Comprehensive Annual Financial Report (CAFR) of the State of Montana for the fiscal year ended June 30, 1987. Responsibility for the accuracy of the data presented and the completeness and fairness of the presentation rests with the Department of Administration.

Description of the CAFR

The organization, form and contents of this report and the accompanying financial statements and statistical tables were prepared in accordance with standards set forth by the Governmental Accounting Standards Board (GASB).

This CAFR is divided into three main sections: an introductory section containing an organization chart for the State and a table of contents; a financial section beginning with the independent auditor's report and containing the general purpose financial statements, combining statements by fund type and other schedules; and a statistical section including financial, economic and demographic data.

Accounting System/Budgetary Control

Montana's Statewide Budgeting and Accounting System (SBAS) is a centrally maintained, fully computerized, double-entry accounting system. SBAS records are computer edited.

In developing and evaluating the State's accounting system, consideration is given to the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the evaluation of costs and benefits requires estimates and judgments by management.

Budgetary control is imposed via legislative and administrative appropriations. SBAS is designed to prevent spending in excess of legislative and administrative authority and/or available cash.

Reporting Entity

The accompanying financial statements include the funds and account groups of all agencies, colleges and universities, vocational-technical centers, boards, commissions and financing authorities that are controlled by or are dependent on the State. Control by or dependence on the State is determined on the basis of the following criteria, as defined in GASB Cod. Sec. 2100: selection of governing authority, designation of management, ability to significantly influence operations, accountability for fiscal matters and scope of public service.

Independent Audit

The financial statements contained in Montana's Comprehensive Annual Financial Report were audited in accordance with generally accepted auditing standards by the Office of the Legislative Auditor. The Legislative Auditor is appointed by and reports to the Legislative Audit Committee. The Deputy Legislative Auditor issued an unqualified opinion on the State's financial statements for Fiscal Year 1987.

General Governmental Functions
(Includes General, Special Revenue, Debt Service and Capital Projects Funds)

Revenues for general governmental functions decreased 3.5% from Fiscal Year 1986 to Fiscal Year 1987. The amount of revenue from various sources is shown in the following table:

Revenue Source	Amount (in thousands)		Percent of Total	
	1987	1986	1987	1986
Licenses/Permits	\$ 80,444	\$ 77,537	6.9%	6.4%
Taxes	578,509	599,112	49.5	49.5
Charges for Services/Fines/Forfeits	48,340	35,125	4.1	2.9
Investment Earnings	24,920	68,879	2.1	5.7
Sale of Documents/Etc.	5,749	15,220	0.5	1.3
Rentals/Leases/Royalties	796	888	0.1	0.1
Grants/Contracts/Donations	6,254	3,942	0.5	0.3
Federal	413,923	400,247	35.4	33.0
Federal Indirect Cost Recoveries	3,296	3,032	0.3	0.2
Other Revenues	6,644	7,247	0.6	0.6
Total Revenues	<u>\$1,168,875</u>	<u>\$1,211,229</u>	<u>100.0%</u>	<u>100.0%</u>

An environment of declining interest rates as well as less money to invest contributed to a 63.8% decrease in investment earnings in these funds.

Expenditures for general governmental functions were \$1.3 billion in Fiscal Year 1987, an increase of 4.6% over Fiscal Year 1986. Expenditures by function are shown in the following table:

Expenditure Function	Amount (in thousands)		Percent of Total	
	1987	1986	1987	1986
General Government	\$ 51,054	\$ 56,461	3.9%	4.4%
Public Safety/Corrections	58,140	57,382	4.4	4.5
Transportation	242,470	269,806	18.3	21.3
Health/Social Services	352,299	304,708	26.6	24.1
Education/Cultural	313,616	318,640	23.7	25.2
Resource Development/Recreation	48,468	52,385	3.7	4.2
Economic Development/Assistance	87,737	87,887	6.6	6.9
Debt Service	139,252	77,448	10.5	6.1
Capital Outlay	30,815	41,118	2.3	3.3
Total Expenditures	<u>\$1,323,851</u>	<u>\$1,265,835</u>	<u>100.0%</u>	<u>100.0%</u>

The increase in debt service expenditures was due primarily to the advance refunding of all Department of Highways' bonds and bond anticipation notes.

General Fund Summary

The General Fund had an unreserved fund balance of \$10.557 million at June 30, 1987 which can be summarized as follows (in thousands):

Fund Balance, July 1, 1986	\$ 18,754
Excess of Revenues Over (Under) Expenditures	(19,127)
Operating Transfers In	85,002
Operating Transfers Out	(106,838)
Bond Proceeds	126
Inception of Lease/Installment Purchase	74
Equity Transfers From (To):	
Public Service Regulation	17
Department of Commerce (Education Nonexpendable Trust)	36,000
Department of Natural Resources	351
Architecture & Engineering (Long-Range Building)	5,145
Institutions	38
Department of Agriculture	(197)
Decrease in Inventories	(13)
Fund Balance, June 30, 1987	<u>19,332</u>
Reserved for Encumbrances	(1,531)
Reserved for Inventories	(1,792)
Reserved for Long-Term Loans	<u>(5,452)</u>
Unreserved	<u>\$ 10,557</u>

Debt Administration

Montana receives excellent bond ratings from both Moody's Investors Service (Aa) and Standard & Poor's Corporation (AA-). State debt may be authorized either by a two-thirds vote of the members of each house of the Legislature or by a favorable vote of a majority of the State's electors voting thereon. There is no constitutional limit on the amount of debt that may be incurred by the State. The Montana Constitution does, however, prohibit the incurring of debt to cover deficits caused by appropriations exceeding anticipated revenue. General obligation debt decreased from \$106.8 million at June 30, 1986 to \$99.4 million at June 30, 1987.

The ratio of general obligation debt to assessed valuation and the amount of general obligation debt per capita are:

	Amount (in thousands)	Ratio of Debt to 1986 Assessed Value	Personal Income Debt Per Capita*
General Obligation Debt	\$99,402	.36%	\$121.37

* Based on 1986 Montana population.

Cash Management

The uniform investment program established by the 1982 Montana Constitution directs that the Board of Investments has sole authority to invest State funds. Permissible investments include bonds, notes, debentures, equipment obligations, common stock, commercial paper, bankers acceptances, interest bearing deposits in Montana financial institutions, real estate and any other investment in a Montana business that continues existing jobs or creates new jobs. These investments are subject to statutory restrictions for quality and size of holdings.

Unless otherwise provided by law, treasury cash is pooled for investment regardless of the fund from which it is deposited and the pool's investment earnings are credited to the General Fund. The Board reported total investment income from investments under their management of \$237.6 million, a decrease of .7% from the \$239.3 million earned last year. The book value of Board managed investments rose 12.3% to \$2.371 billion from \$2.112 billion at fiscal year-end 1986. The Board publishes an annual audited report of all its investment activity. That report can be referenced for more in-depth portfolio information.

Significant Events

The 1986-87 biennium was the most financially difficult time period for the State of Montana in at least fifteen years. During the period, the State suffered the worst drought since 1960. The fiscal situation was compounded by low farm commodity prices, low oil prices and pressure on coal prices and production as a result, and reduced interest earnings from lower interest rates. Despite the difficulties, prompt action by both the Governor and the Legislature ensured a balanced budget throughout the period.

During the biennium, the Governor twice reduced the expenditure authority of State programs. He also called a special session in June of 1986 to deal with a projected \$88 million deficit. The Legislature responded, adopting 28 of 29 of the Governor's budget recommendations. Revenues were increased by \$50.7 million, expenditures were reduced by \$21.4 million and cash from other accounts was transferred to the General Fund in the amount of \$8.3 million.

In the fiscal year ending June 30, 1987, notwithstanding actions taken at the June 1986 special session, revenues had not reached projections and social service entitlement program costs had exceeded expectations. The Governor responded by reducing spending by an additional 2% in November 1986. When the 1987 Legislature met in early 1987, it transferred \$35 million from the Education Nonexpendable Trust Fund to the General Fund to ensure that the State would maintain a positive fund balance in Fiscal Year 1987.

Future Prospects

The 1987 Legislature faced a projected \$100 million deficit for the 1989 biennium using existing statutory revenues and expenditures.

At the Governor's urging, the Legislature did not increase total expenditures despite increased costs for growing welfare caseloads and entitlement social service programs. Higher enrollments in elementary and secondary schools also added to the costs of State education programs. Total expenditures for the fiscal years ending June 30, 1988 and 1989 will each be less than Fiscal Year 1987 expenditures.

With the Governor's concurrence, the Legislature froze the salaries of State employees for the 1988-89 biennium and reduced the State work force from 14,600 to 13,700. The pay freeze was the first since the adoption of a uniform pay plan in 1975. Additionally, the Legislature froze State aid to public schools, the first freeze in the school foundation program since its creation in 1949. Benefit levels for almost all entitlement programs were frozen or reduced for the 1988-89 biennium. The university system also consolidated certain administrative functions of the University of Montana and Western Montana College.

On the revenue side, the Legislature included the increased State individual income tax collections due to federal tax reform in the base of ongoing revenues for the 1988-89 biennium and beyond. Federal tax reform is estimated to increase projected revenues by \$24.6 million in fiscal year 1988 and \$41.4 million in fiscal year 1989. In addition, the Legislature imposed a 10% surtax on individual income taxes for the 1988-89 biennium, raising an estimated \$40.2 million. Fees on vehicles were increased to fund the State's aid program for local governments, freeing up \$15 million of oil severance tax for the General Fund. Insurance premium taxes will be collected on a quarterly basis rather than a yearly basis, generating \$12.6 million of additional, one-time revenue in Fiscal Year 1988. Coal severance tax proceeds that would otherwise have been deposited in the Education Nonexpendable Trust Fund will be used to finance the State's contribution to elementary and secondary education costs, saving the General Fund \$24.6 million. Gas and diesel taxes were increased by three cents per gallon from 17 cents to 20 cents. While fuel tax revenues must be used for highway construction, the increased interest earnings to the General Fund amount to \$2.7 million.

After the transfer from the Education Nonexpendable Trust Fund to the General Fund in Fiscal Year 1987, total funds invested in trusts for which interest earnings provide revenue to the General Fund are still expected to increase between the 1987 and 1989 bienniums. Constitutional provisions require continuing deposits to the Permanent Coal Tax, Resource Indemnity and Land Grants Nonexpendable Trust Funds. Total trust balances are projected to be \$741.813 million on July 1, 1989.

Of the funds in trust, \$25.808 million may be expended by a simple majority vote of the Legislature and \$337.834 million may be expended by a three-quarter vote of both houses. The remaining amount would require a constitutional change to be appropriated.

Acknowledgements

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the Accounting Division. I would like to express my appreciation to Accounting Division personnel. I also thank the Legislature and all State agencies for their interest and support in planning and conducting the financial operations of Montana in a professionally responsible and progressive manner.

Respectfully submitted,

ELLEN FEAVER, CPA, Director
Department of Administration

406/444-3122

DEPUTY LEGISLATIVE AUDITORS:

JAMES GILLETT
FINANCIAL-COMPLIANCE AUDITS

JIM PELLEGRINI
PERFORMANCE AUDITS

LEGAL COUNSEL:

JOHN W. NORTHEY

To the Legislative Audit Committee
of the Montana State Legislature:

We have examined the general purpose financial statements of the State of Montana as of and for the year ended June 30, 1987, as listed in the Table of Contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances. We did not examine the financial statements of the Montana Board of Housing which statements reflect total assets, liabilities, revenues, and expenses of 87 percent, 91 percent, 42 percent, and 46 percent, respectively, of the related Enterprise Fund Type. These statements were examined by other auditors whose report thereon was furnished to us, and our opinion expressed herein insofar as it relates to the amounts included for the Montana Board of Housing is based solely upon the report of other auditors.

In our opinion, based upon our examination and the report of other auditors, the general purpose financial statements referred to in the Table of Contents present fairly the financial position of the State of Montana at June 30, 1987, and the results of operation and the changes in financial position of its proprietary fund types for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

Our examination was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining financial statements listed in the Table of Contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Montana. Such information has been subjected to the auditing procedures applied in the examination of the general purpose financial statements and, in our opinion, is fairly stated in all material respects in relation to the general purpose financial statements taken as a whole.

Respectfully submitted,

A handwritten signature in cursive script that reads "James Gillett".

James Gillett, CPA
Deputy Legislative Auditor

STATE OF MONTANA

NOTES TO THE FINANCIAL STATEMENTS

June 30, 1987

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity - For financial reporting purposes, in conformance with the Governmental Accounting Standards Board (GASB) Cod. Sec. 2100, the State of Montana includes all fund types and account groups of the various agencies, boards and commissions that are controlled by or dependent on the State's legislative, executive or judicial branches. Control by or dependence on the State was determined on the basis of the following criteria, as defined in GASB Cod. Sec. 2100: selection of governing authority, designation of management, ability to significantly influence operations, accountability for fiscal matters and scope of public service. The following organizations meet this criteria and are included in the accompanying financial statements:

Higher Education Units

State-owned Universities/Colleges/
Vocational-Technical Centers

Financing Authorities

Montana Board of Housing
Montana Health Facility Authority
Montana Economic Development Board
Montana Agricultural Loan Authority

The following organizations have been determined not to be part of Montana's reporting entity after applying the above criteria and are excluded from the accompanying financial statements because the State does not control the assets, operations or management of the respective entities: (1) community colleges; (2) the Montana Higher Education Student Assistance Corporation; and (3) private foundations supporting public education.

Basis of Presentation - Montana reports its financial activity in accordance with generally accepted accounting principles (GAAP) as prescribed in pronouncements of the GASB. The financial statements of the higher education funds have been prepared in conformity with GAAP for colleges and universities, except for General Fund appropriations, which are reported as "Transfers from State General Fund".

Significant intrafund transactions and balances have been eliminated.

The "Totals - Memorandum Only" columns represent a summation of the combined financial statements and does not represent the total resources available or total revenues and expenditures/expenses of the State.

Fund Structure - Montana's various funds are grouped in the financial statements in this report as follows:

GOVERNMENTAL FUNDS

General Fund - To account for all governmental financial resources except those required to be accounted for in another fund.

Special Revenue Funds - To account for the proceeds of specific revenue sources restricted to expenditure for specified purposes (other than expendable trusts or major capital projects).

Debt Service Funds - To account for resources accumulated for payment of principal and interest on long-term general obligation debt.

Capital Projects Funds - To account for resources used for the acquisition or construction of major capital facilities (other than those financed by proprietary or trust funds).

PROPRIETARY FUNDS

Enterprise Funds - To account for operations (1) financed and operated similar to private business enterprises, where the intent of the Legislature is that costs are to be financed or recovered primarily through user charges; or (2) where the Legislature has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate.

Internal Service Funds - To account for the financing of goods and services provided by one department or agency to other departments, agencies or other governmental entities on a cost-reimbursement basis.

FIDUCIARY FUNDS

Trust and Agency Funds - To account for assets held by the State in a trustee capacity or as an agent for individuals, private organizations, other governments or other funds. These include: (1) Expendable Trust Funds; (2) Nonexpendable Trust Funds; (3) Pension Trust Funds; and (4) Agency Funds.

ACCOUNT GROUPS

General Fixed Assets Account Group - To account for all fixed assets of the State, except those accounted for in the Proprietary, Nonexpendable Trust, Pension Trust and Plant Funds.

General Long-Term Obligations Account Group - To account for all long-term obligations of the State, except those accounted for in Proprietary, Nonexpendable Trust, Pension Trust and Plant Funds.

HIGHER EDUCATION (UNIVERSITY AND VOCATIONAL-TECHNICAL CENTER) FUNDS

Current Funds

Unrestricted

General Operating - This fund includes the portion of financial resources that can be expended for general operations and is free of externally imposed restrictions, except those imposed by the Legislature.

Designated - This fund includes financial resources associated with general operations but are separately classified in order to accumulate costs that are to be recharged to other funds. It also identifies educational departments' special activities that are fully supported by supplemental assessments and identifies special supply and facility fees that are approved for collections beyond normal course fees and their disposition.

Auxiliary - This fund includes those financial resources devoted to providing essential on-campus services primarily to students, faculty or staff where a fee relating to the service is charged.

Restricted - This fund includes the portion of financial resources that can be expended for general operations but only for purposes imposed by sources external to the Board of Regents and the Legislature.

Fiduciary Funds

Student Loans - Accounts for monies which may be loaned to students, faculty or staff for purposes related to education, organized research or public services by the higher education units.

Endowments - Accounts for monies where the principal is available for investment. Investment earnings are to be transferred to (or recorded directly in) appropriate operating funds pursuant to prevailing administrative requirements.

Agency - Accounts for monies where the State acts in the capacity of a custodian or fiscal agent for individual students, faculty, staff or qualified organizations.

Plant Funds

Unexpended - Accounts for unexpended resources derived from various sources to finance the acquisition/construction of plant assets and the associated liabilities.

Renewal and Replacement - This fund's resources provide for the renewal and replacement of plant fund assets as distinguished from additions and improvements.

Retirement of Indebtedness - This fund accumulates resources for interest and principal payments and other debt service charges, including contributions to reserves, relating to plant fund indebtedness.

Investment in Plant - This fund includes all long-lived assets in the service of the higher education unit as well as all associated liabilities.

Basis of Accounting - The accounting and reporting treatment applied to a fund is determined by its measurement focus. All Governmental Funds, Expendable Trust Funds and Agency Funds are accounted for on a spending or "financial flow" measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets.

The modified accrual basis of accounting is followed in the Governmental Funds, Expendable Trust Funds and Agency Funds. Under the modified accrual basis, revenues are susceptible to accrual and recognized when they are measurable and available to pay current period liabilities. Intergovernmental revenues received as reimbursements are recognized based upon the expenditures/encumbrances

recorded. Intergovernmental revenues received but not earned are recorded as deferred revenues. Taxes on coal sales, gas and oil production, individual income and other self-assessed taxes are recognized as revenues, if available, when tax returns are filed. Based on historical analysis, a liability has been recognized for collected withholding taxes that will be refunded in fiscal year 1988. Expenditures are recognized when the related liability is incurred, with the following exceptions:

- (1) principal and interest on long-term debt is reported when due;
- (2) prepayments are accounted for as expenditures in the period of acquisition; and
- (3) inventory items are considered expenditures when purchased.

All Proprietary, Pension Trust and Nonexpendable Trust Funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities associated with this activity are included on their balance sheets. Operating statements for these funds present increases (revenues) and decreases (expenses) in net total assets.

Proprietary, Pension Trust, Nonexpendable Trust and Higher Education Funds are maintained and report on the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and become measurable; expenses are recognized in the period incurred, if measurable. In Higher Education Funds, depreciation expense related to plant fund assets is not recorded; also, student tuition and fees are fully recognized in the fiscal year in which the related courses or activities are principally conducted. Proprietary and Higher Education Funds' unbilled receivables are recognized as revenue.

Receivables - This classification, net of estimated uncollectibles, consists primarily of receivables for goods sold and services provided; short-term loans and notes; interest and dividends; and income, withholding and inheritance taxes that are past due. An allowance for uncollectible taxes is provided based upon historical analysis. The allowance for uncollectible taxes at June 30, 1987 was \$3 million.

Inventories - Inventories of materials and supplies are stated at lower of cost or market. The State allows agencies to use any generally accepted inventory pricing method, but specifies that the first-in, first-out method should be appropriate for most agencies.

Governmental and Expendable Trust Funds use the "purchase method", meaning inventory purchases are recorded as expenditures. At fiscal year-end significant amounts of inventory are shown as a reserve of fund balance, indicating they do not constitute "available spendable resources".

Proprietary, Pension Trust, Nonexpendable Trust and Higher Education Funds report using the "consumption method", meaning inventories are expensed as used.

Deferred (Gains) Losses - This classification is used in the Pension Trust Funds to reflect use of the deferral and amortization method of accounting for gains and losses on the exchange of securities.

Deferred Revenue - Deferred revenues are those where asset recognition criteria have been met but for which revenue recognition criteria have not been met.

Property Taxes - Real property taxes are levied in October and are payable in two installments on November 30 and May 31. These taxes attach as an enforceable lien immediately upon becoming delinquent.

Personal property tax levies are set each August and notices are normally mailed the following March or April. Half of mobile home taxes are due in 30 days and the remaining half on September 30. Taxes on all other types of personal property are to be paid in full 30 days after receipt of the notice. Personal property taxes attach as an enforceable lien immediately upon becoming delinquent.

Property taxes are collected by each of Montana's 56 counties. The counties then submit the State's portion to the State Treasury. The majority of these taxes help fund the public school systems and higher education.

Fund Balance/Retained Earnings Reserves - Portions of fund equity are reported as "reserved" to indicate (1) amounts not available for expenditure, such as equity represented by inventories; and (2) amounts legally segregated for a specific future use, such as those pledged for debt service and retirement or legally-binding contractual agreements.

Compensated Absences - State employees earn vacation leave ranging from 15-24 days per year depending on the individual's years of service. Vacation leave may be accumulated to a total not to exceed two times the maximum number of days earned annually. Sick leave is earned at the rate of 12 days per year with no limit on accumulation. Each contribution year, an employee may contribute a maximum of 40 hours of sick leave to a nonrefundable sick leave pool. As of June 30, 1987, 3,324 hours were contributed to the sick leave pool; 20 hours were withdrawn leaving a balance of 3,304 hours in the

pool. No liability is reported in the accompanying financial statements because these hours are nonrefundable to participants except by grants approved through an application process. Upon retirement or termination, an employee is paid for 100% of unused vacation leave and 25% of unused sick leave. As of June 30, 1987, the State's liability for unused vacation and sick leave for Higher Education Funds was \$13.3 million. The remaining agencies' leave liabilities at June 30, 1987 were \$27.9 million, an increase of \$.7 million over the June 30, 1986 leave liability of \$27.2 million; this increase resulted from the following (in millions):

	Balance July 1, 1986	Leave Earned	Leave Used	Balance June 30, 1987
Governmental Fund Types and Similar Trust Funds	\$ 25.2	\$ 12.6	\$ 12.0	\$ 25.8
Proprietary Fund Types and Similar Trust Funds	2.0	1.1	1.0	2.1
Total Non-Higher Education Funds	<u>\$ 27.2</u>	<u>\$ 13.7</u>	<u>\$ 13.0</u>	<u>\$ 27.9</u>

2. **RESTATEMENTS/RECLASSIFICATIONS** - The State changed its accounting and reporting practices to enhance conformance with GAAP. These changes are reported in the accompanying financial statements by restating fiscal year 1986 balances. The following summary itemizes those restatements:

Balance Sheet

1. Restricted assets reported for the Montana Board of Housing Enterprise Fund are included in the "Investments" line item for fiscal year (FY) 1986. Footnote 4 (Deposits and Investments) discloses the applicable risk categories for the FY87 amounts.
2. The "Allowance for Realized Gains (Losses)" reported for the Investment Pool Agency Fund is reported in "Property Held in Trust" for both fiscal years.
3. See Footnote 8 for the restatement of "Other Fixed Assets" in the General Fixed Assets Account Group.

Governmental Operating Statement

4. FY86 expenditures (Education/Cultural) and revenues (Other Taxes) were each increased by \$86.656 million of school foundation program funding.

Proprietary Operating Statement

5. It was not practical to restate FY86 for adding the following line items reported in FY87: (a) Travel; and (b) Expendable Equipment. These items were reported in "Other Expenses" for FY86.

Prior Period Adjustments - For the fiscal year-ended June 30, 1987, the following corrections of errors have resulted in beginning fund equity restatements (in thousands):

Fund Type	Increase (Decrease)		Totals
	A	B	
Special Revenue	\$ 6,700	\$ -	\$ 6,700
Debt Service	(6,307)	-	(6,307)
Enterprise	-	3,206	3,206
Internal Service	(1,100)	-	(1,100)
Expendable Trusts	799	-	799
Nonexpendable Trusts	(1,447)	-	(1,447)
Pension Trusts	6	-	6
Higher Education:			
General Operating	1	-	1
Designated	167	-	167
Auxiliary	-	(3,206)	(3,206)
Restricted	(3)	-	(3)
Endowments	(1)	-	(1)
Unexpended Plant	951	-	951
Totals	<u>\$ (234)</u>	<u>\$ -</u>	<u>\$ (234)</u>

- A. Restatements for activity reported incorrectly in fiscal year 1986.
- B. Montana University System (MUS) group insurance activity was moved from the Higher Education Auxiliary Fund to an Enterprise Fund for consistent reporting of employees' insurance benefits.

3. BUDGETARY REPORTING

State Budget Process - Montana is a biennial budget state. The constitution requires that Legislative appropriations not exceed available revenues. Revenues are administratively budgeted, but not legally adopted. Expenditures may not legally exceed budgeted appropriations at the program level. In addition, the State Constitution prohibits borrowing to cover deficits incurred because appropriations exceeded anticipated revenues. Budgets are required by State law for the General, Special Revenue, Capital Projects, Enterprise and Internal Service Funds. Budgets may be established in other funds for administrative purposes.

Agency budget requests are submitted to the Governor and the legislative fiscal analyst. The Governor and budget director establish priorities and balance the budget. The Governor's budget is submitted to the legislative fiscal analyst who then prepares recommendations. A comparison of those recommendations with the Governor's budget is submitted to the Legislature. Joint appropriations subcommittee hearings are held and an omnibus appropriation bill is reported to the House and subsequently to the Senate. The Legislature generally enacts one bill making all appropriations for the next two fiscal years. Other appropriations are enacted by the Legislature, but only within the revenue available. Agencies must prepare and submit to the budget director operational plans showing the allocation of operating budgets by line item (i.e., personal services, contractual services, equipment, etc.). The budget director may authorize transfers of funds between line items unless limited by the appropriation act.

Appropriations may not be increased by amendment in the General Fund. However, a department, institution or agency of the executive branch desiring authorization to make expenditures from the General Fund during the first fiscal year of the biennium from appropriations for the second fiscal year of the biennium may apply for authorization from the Governor through the budget director. Additionally, the Governor may approve budget amendments for non-General Fund monies not available for consideration by the Legislature and for emergencies. In the accompanying financial statements, reported budget amounts are as amended, if applicable. Supplemental appropriations of \$31.3 million for the General Fund for fiscal year 1987 were approved during the 1987 Legislative Session. There were no recorded expenditures in excess of total authorized appropriations in the State's budgeted funds for the fiscal year.

Appropriations may be continued into the next fiscal year when authorized by the Legislature or the Governor's Office. Appropriations that are not continued are reverted after fiscal year-end. The reverted appropriations remain available for one fiscal year for expenditures that exceed the amount accrued/encumbered. Fund balances/retained earnings are not reserved for reverted appropriations. Reverted appropriations for fiscal year 1987 were \$195 million for all funds.

Because Capital Projects Funds' appropriations are not made on an annual basis, Capital Projects Funds' activities are not presented in the Combined Statement of Revenues, Expenditures, Other Financing Sources (Uses) and Reconciliation of Budget and Actual (Budgetary Basis) to GAAP Basis.

Encumbrances - Encumbrance accounting, under which purchase orders, contracts and other commitments are recorded as expenditures and liabilities in order to reserve that portion of the applicable appropriation, is employed for budget control purposes. Encumbrances outstanding at fiscal year-end are reported as reservations of fund balances for subsequent year expenditures.

Budget Basis - The Legislature's legal authorization ("appropriations") to incur obligations is enacted on a basis inconsistent with GAAP. The budget basis differs from GAAP for encumbrances outstanding at fiscal year-end; compensated absences, fixed assets and inventories purchased in Proprietary Funds; compensated absences and inventories purchased in Higher Education Funds; certain loans from Governmental Funds; deferred gains (losses) on bond swaps; and, other miscellaneous nonbudgeted activity (e.g., bad-debt write-offs, etc.). The General and Special Revenue Fund Type budgetary statement includes a reconciliation between "Excess of revenues/other sources over (under) expenditures/other uses" on the budgetary basis and the GAAP basis.

4. DEPOSITS AND INVESTMENTS

This footnote details the following balance sheet classifications (in thousands):

Cash/Cash Equivalents	\$ 356,993
Cash with Fiscal Agent	\$ 9,386
Equity in Pooled Cash/Investments	\$ 705,216
Investments	\$ 1,735,702

Carrying amounts and market values (bank balance for cash deposits) are presented in Table 1 (Cash Deposits), Table 2 (Short-Term Investments), Table 4 (Equity in Pooled Cash/Investments) and Table 5 (Investments).

The State's investments are categorized in Table 3 (Short-Term Investments), Table 4 (Equity in Pooled Cash/Investments) and Table 6 (Investments) to disclose the level of risk assumed by the State at fiscal year-end. Category 1 includes investments that are insured, registered or uninsured, unregistered securities held by the State or its agent in the State's name. Category 2 includes uninsured and unregistered investments for which the securities are held by the broker's or dealer's trust department or agent in the State's name. Category 3 includes uninsured and unregistered investments for which the securities are held by the broker or dealer, or by its trust department or agent but not in the State's name.

Cash/Cash Equivalents - Consists of cash deposits and short-term investments. Short-term investments may be under the control of the Board of Investments (the Board) or other agencies as allowed by law. The Board must employ the "Prudent Person Rule" in managing the State's investment portfolio. Common stock purchases are restricted to pension funds and are subject to statutory restrictions for quality and size of holding. The Board administers approximately 14% of short-term investments.

TABLE 1 - CASH DEPOSITS

Risk Category	Carrying Amount	Bank Balance	Fund
Insured (FDIC)	\$ 3,166	\$ 3,166	Various
Uninsured:			
(1) Collateral held by State Treasury	9,429	9,429	Various

* At June 30, 1987, securities (Cost \$2,834; market \$2,877) were loaned under a security lending agreement with the State's agent. The security lending agreement required that the loaned securities be collateralized with government obligations at 102% of their face value. Under the agreement, all of the State's investments may be loaned. Other types of investment activity during fiscal year 1987 were insignificant.

Cash with Fiscal Agent - Cash deposited with fiscal agents is summarized below:

	Carrying Amount	Fund Type
(1) Department of Highways condemnation deposits with local clerks of court	\$ 1,030	Special Revenue
(2) Montana Economic Development Board's collateralized deposits with bond fiscal agent	2,194	Enterprise
(3) Higher Education collateralized deposits with bond fiscal agents	6,112	Higher Education
(4) Miscellaneous deposits with fiscal agents	50	Special Revenue/ Internal Service
TOTAL CASH WITH FISCAL AGENT	<u>\$ 9,386</u>	

Equity in Pooled Cash/Investments - Consists of all cash in the State Treasury not invested by individual funds in identifiable securities. Cash is pooled and invested in either short-term instruments known as STIP (Short-Term Investment Pool) or in common stock of publicly held companies known as MONTCOMP (Montana Common Stock Pool). Each investing fund purchases units in either STIP or MONTCOMP. Local governments outside this reporting entity are also allowed to invest in STIP.

TABLE 4 - EQUITY IN POOLED CASH/INVESTMENTS

	Categories			Carrying Amount	Market Value	Fund

** As of June 30, 1987 securities (Carrying Amount at Cost \$50,699; Market Value \$51,106) were owned by local governments.

Investments - Consists of investments primarily administered by three State agencies. Article 8 of Montana's Constitution, with supporting statutes, provides the Board of Investments with the authority behind the State's uniform investment program. Legal provisions determine which agencies may hold investments outside the administration of the Board. The Board, as the State's primary administrator of long-term investments, actively manages 93% of those investments; the Board of Housing, 4%; the Department of Administration's Personnel Division administers about 2% for the State's Deferred Compensation Plan; and the remaining 1% are administered by various other agencies. Most funds carry equity securities at cost and debt securities at amortized cost except the deferred compensation funds which are carried at market.

TABLE 5 - INVESTMENTS (CARRYING AMOUNT/MARKET VALUE)

** At June 30, 1987, securities (Carrying Amount at Cost \$147,766; Market Value \$155,493) were loaned under a security lending agreement with the State's agent. The security lending agreement required that the loaned securities be collateralized with government obligations at 102% of their face value. Under the agreement, all of the State's investments may be loaned. Other types of investment activity during fiscal year 1987 were insignificant.

5. INTERFUND TRANSACTIONS

During the course of normal operations, the State has numerous transactions between funds to finance operations, provide services, construct assets, service debt, etc. Montana statutes include a provision for interfund loans when the expenditure of an appropriation is necessary and the cash balance in the account from which the appropriation was made is insufficient to pay the expenditure. To the extent that certain transactions between funds have not been paid or received as of June 30, 1987, interfund receivables/payables (Due From/To Other Funds) have been recorded. The schedule below presents all interfund balances outstanding at June 30, 1987 (in thousands):

Funds	Interfund Loans		Due From	Due To	Operating Transfers		Residual Equity Transfers	
	Receivable	Payable	Funds	Funds	In	Out	In	Out

6. STATE DEBT

General Information - The State has no constitutional limit on its power to issue obligations or incur debt other than a proviso that no debt may be created to cover deficits incurred because appropriations exceeded anticipated revenues. The Board of Examiners (consisting of the Governor, Secretary of State and Attorney General) is authorized, pursuant to various enabling acts, to issue bonds and notes of the State.

Short-Term Debt - The Board of Examiners, upon recommendation of the Department of Administration, may issue notes in anticipation of the receipt of taxes and revenues. No notes may be issued to refund outstanding notes. The notes must be redeemed at the end of the fiscal year in which issued. The State issued \$83.2 million of these notes on July 31, 1986; they were redeemed in June, 1987.

Long-Term Debt - The full faith, credit and taxing powers of the State are pledged for the payment of all general obligation debt. Revenue bonds and mortgage bonds are secured by a pledge of resources from the facilities to which they relate and by certain other revenues, fees and assets of the State and the various colleges and universities. Long-term debt (excluding bonds/notes of Enterprise Funds discussed elsewhere in this footnote; Leases - Note 7; and Compensated Absences - Note 1) of the State at June 30, 1987, is as follows (in thousands):

General Obligation Debt	Series	Amount Issued	Interest Range (%)	Principal Payments		Balance June 30, 1987
				FY 1988	Year of Maturity

Total Nonbonded Debt		\$ 1,358		\$ 33		\$ 1,246
TOTAL GENERAL LONG-TERM OBLIGATIONS ACCOUNT GROUP						\$279,064

(1) Chapter 242, 1974 Laws of Montana authorized a lease-purchase contract commencing November 1, 1976.

(2) First payment of \$50,000 is due in 1989.

(3) Series 1985 B and 1985 C are additionally secured by a pledge of and payable from certain coal severance taxes. Series 1985 B is also secured by a pledge of loan repayments from loans made from the proceeds thereof.

(4) First payment of \$7,820,000 is due in 1994.

(5) Issued by the Department of Natural Resources and Conservation (DNRC) and backed by a pledge of coal severance taxes.

(6) Adjustable convertible extendable securities - debt service assumed at 9%. An irrevocable direct-pay Letter of Credit was provided by the Los Angeles Agency of the L-T Credit Bank of Japan, Limited.

(7) Bonds were sold to Farmers Home Administration.

(8) DNRC Federal Loans.

Refunded Bonds - The State of Montana and the Board of Regents of Higher Education have issued general obligation and revenue refunding bonds, respectively, to refund obligations with respect to certain bond issues already outstanding. The proceeds of the refunding issues have been placed in escrow accounts and invested in U.S. Treasury Obligations that, together with interest earned thereon, will be sufficient for future payment of principal and interest on the refunded issues. The schedule on the next page lists the principal requirements to maturity on all refunded bond issues (in thousands).

SCHEDULE OF PRINCIPAL REQUIREMENTS TO MATURITY - REFUNDED ISSUES

Fiscal Year Ending June 30	General Oblig. Bonds	Dept. of Hwys	DNRC Revenue	Board of Regents Revenue Bonds				Total Principal
				U of M	MSU	EMC	TECH

Enterprise Funds

- Board of Housing Revenue Bonds - The Montana Board of Housing (Housing Authority) is authorized to have an aggregate of \$975 million of housing mortgage bonds outstanding. The bonds are payable from mortgage loan repayments and investment earnings. All bonds issued to date are secured by federally insured or guaranteed mortgages. Statutory provisions exist wherein the Governor shall include in the executive budget submitted to the Legislature the sum required to fund possible future deficiencies in required reserves, however, the Legislature is not legally required to appropriate such deficiencies: None of the outstanding bonds were issued under these provisions. Bonds (net) outstanding at June 30, 1987 were as follows (in thousands):

	<u>Single Family</u>	<u>Multi-Family</u>	<u>Totals</u>
Mortgage Bonds	\$ 526,080	\$ 14,545	<u>\$ 540,625</u>

Scheduled principal payments for the next five fiscal years are as follows (in thousands):

	<u>1988</u>	<u>1989</u>	<u>1990</u>	<u>1991</u>	<u>1992</u>	<u>Totals</u>
Single Family	\$16,980	\$17,595	\$17,930	\$19,030	\$20,080	\$91,615
Multi-Family	<u>105</u>	<u>115</u>	<u>120</u>	<u>125</u>	<u>130</u>	<u>595</u>
Totals	<u>\$17,085</u>	<u>\$17,710</u>	<u>\$18,050</u>	<u>\$19,155</u>	<u>\$20,210</u>	<u>\$92,210</u>

Amounts reported in the Enterprise Fund for the Board of Housing were reproduced from their most recent audit report, which received an unqualified opinion dated August 28, 1987. The auditors, Anderson Zurmuehlen & Co., P.C. may be contacted at P.O. Box 1147, Helena, MT 59624 or at (406) 442-3540 for more information.

- Montana Economic Development Board (MEDB) - This financing authority is directed by a seven member board and operations are administered by the Department of Commerce. MEDB assists Montana's small businesses and local governments in obtaining long-term, fixed rate financing through private Montana lending institutions. Outstanding MEDB obligations are as follows (in thousands):

	<u>Year Issued</u>	<u>Year Matures</u>	<u>Amount Issued</u>	<u>Balance June 30, 1987</u>
Industrial Development Revenue Bonds (Pooled Loan Program) Series 1984 A - 1984 G (1)	1984	2006	\$ 3,650	\$ 3,560
Industrial Development Revenue Bonds (Pooled Loan Program) Series 1985 A - 1985 L(1)	1985	2007	4,925	4,160
Municipal Finance Consolidation Act Bonds (Cash Anticipation Financing Program) Series 1986 (2)	1986	1988	27,480	27,480
Municipal Finance Consolidation Act Bonds (Intermediate Term Capital Program) Series 1987(2)	1987	1995	<u>6,500</u>	<u>6,500</u>
Totals			<u>\$ 42,555</u>	41,700
Deduct: Net Unamortized Issuance Costs/Discounts/Premiums				<u>(656)</u>
Total MEDB Bonds Payable (Net)				<u>\$ 41,044</u>

- (1) The bonds, which may not aggregate more than \$75 million, are limited obligations of the MEDB payable solely from and secured by certain revenues and assets of the MEDB pledged pursuant to an Indenture of Trust. The bonds do not constitute a debt, liability or legal obligation of the State of Montana. However, if the balance in the MEDB's "Capital Reserve Account A" falls below the indenture requirement, the Governor is required to request the Legislature to appropriate funds to restore the balance. The Legislature may, but is not legally obligated to, appropriate funds to correct any such deficiency. Principal payments (accrued interest to be added) are due each March 15. Series 1985 J (\$665,000) was recalled on March 15, 1986 without a gain (loss) on extinguishment.
- (2) These bonds, which may not aggregate more than \$50 million, were issued to provide funds for the MEDB to finance the purchase of tax or revenue anticipation notes (TRANS) of participating local government units. The bonds are not a debt or liability of the State of Montana. The bonds are limited obligations of the MEDB payable solely from repayments of principal and interest on local government TRANS, proceeds of a loan made to MEDB by the Montana State Board of Investments and investment income.

Scheduled principal requirements are as follows (in thousands):

<u>1988</u>	<u>1989</u>	<u>1990</u>	<u>1991</u>	<u>1992</u>	<u>1993 +</u>	<u>Totals</u>
\$180	\$27,685	\$225	\$250	\$275	\$13,085	<u>\$41,700</u>

No-Commitment Debt - Information is presented below for financing authorities participating in debt issues which are not recorded in the accompanying financial statements.

- **Montana Health Facility Authority (MHFA)** - In February 1985, the MHFA issued \$18 million of Hospital Facilities Variable Rate Revenue Bonds (Billings Deaconess Hospital Project) - Series 1985. The bonds were issued to (1) reimburse Billings Deaconess for remodeling existing facilities; (2) finance capital equipment purchases; (3) refinance outstanding indebtedness of \$752,000; and (4) pay certain bond issuance costs. These bonds are special obligations of the MHFA payable solely out of loan repayments received from Billings Deaconess. The bonds do not constitute a debt, liability or obligation of the State of Montana. Principal payments (accrued interest to be added) are due each January 1. Principal payments range from \$100 thousand in 1989 to \$2.3 million in 2014.

In June 1985, the MHFA issued \$440 thousand (\$404,374 balance at June 30, 1987) of hospital facility revenue notes (West Mont Home Health Services, Inc.). Variable monthly payments began July 1, 1985, with the final payment due June 1, 2005. The notes do not constitute a debt, liability or obligation of the State of Montana.

The MHFA issued \$66.9 million health care revenue bonds (due in total on December 1, 2015; outstanding at June 30, 1987 \$65.9 million) in December, 1985. These bonds were issued for the purpose of enabling the MHFA to make loans to private nonprofit hospitals and other private nonprofit health institutions and public health institutions located in the State of Montana in order to finance, refinance or provide reimbursement to the health institutions for the cost of acquisition or construction of equipment and capital improvements and to pay the cost of refunding a \$23.5 million issue (due in total September 1, 1991) of MHFA's Variable Rate Revenue Bonds. The bonds are payable solely from loan repayments to be made by the health institutions pursuant to loan agreements, from the funds created by the indenture and from investment earnings on those funds. The bonds do not constitute a debt, liability or obligation of the State of Montana.

- **Montana Agricultural Loan Authority (MALA)** - The MALA is authorized to issue bonds to finance projects for beginning farmers within the State if it appears, after a properly noticed public hearing, that the project is in the public interest of the State. These non-recourse, industrial development revenue bonds do not constitute a debt, liability or obligation of the State of Montana. Outstanding bonds are as follows: (1) Linger Project (\$94,737; issued \$112,200); and (2) Jorgensen Project (\$77,535; issued \$81,600).
- **Montana Economic Development Board (MEDB)** - The MEDB issued bonds on behalf of borrowers under the Stand-alone Program during fiscal year 1987. The bonds issued under this program do not constitute a debt or liability to the MEDB or the State of Montana. Assets and revenues of the borrowers are pledged to repay the bonds. Accordingly, the Stand-alone bond issues are not recorded in the State's financial statements. The bonds issued were \$17.605 million.

7. LEASES/INSTALLMENT PURCHASES

The State has entered into various capital and operating leases for land, buildings and equipment. Lease contracts are required by law to contain a clause indicating continuation of the lease is subject to funding by the Legislature. It is expected that in the normal course of operations most of these leases will be replaced by similar leases. Changes in capitalized leases/installment purchases follow (in thousands):

	Balance July 1, 1986	Additions (Deductions)	Balance June 30, 1987
General Long-Term Obligations	\$ 731	\$ (560)(1)	\$ 171
Proprietary Fund Types			
Enterprise Fund	\$ 7	\$ 817	\$ 824
Internal Service Fund	<u>12,602</u>	<u>(2,638)</u>	<u>9,964</u>
Total Proprietary	\$ <u>12,609</u>	\$ <u>(1,821)</u>	\$ <u>10,788</u>
Higher Education Funds	\$ <u>1,145</u>	\$ <u>19</u>	\$ <u>1,164</u>
Total Capitalized Leases/ Installment Purchases	\$ <u>14,485</u>	\$ <u>(2,362)</u>	\$ <u>12,123</u>

(1) This amount consists of \$77,000 of additions and \$637,000 of deductions.

Future minimum lease payments under capital leases/installment purchases are as follows (in thousands):

Fiscal Year Ending June 30	General Long-Term Obligations	Proprietary Fund Types Enterprise	Internal Service	Higher Education Funds	Totals
1988	\$ 117	\$ 283	\$ 2,495	\$ 458	\$ 3,353

Less: Interest	<u>(40)</u>	<u>(3)</u>	<u>(3,420)</u>	<u>(414)</u>	<u>(3,877)</u>
Present value of minimum payments	\$ <u>171</u>	\$ <u>824</u>	\$ <u>9,964</u>	\$ <u>1,164</u>	\$ <u>12,123</u>

Operating Leases

Future rental payments under operating leases are as follows (in thousands):

Fiscal Year Ending June 30	Amount
1988	\$1,291
1989	1,074
1990	771
1991	477
1992	369
After 1992	<u>728</u>
Total future rental payments	\$ <u>4,710</u>

8. FIXED ASSETS

Fixed asset valuation is based on actual or estimated historical cost or, in the case of donations, fair market value at the time of receipt. Infrastructure fixed assets are generally not capitalized. Interest incurred during construction is not capitalized for general fixed assets or higher education units' fixed assets.

Proprietary, Nonexpendable Trust and Pension Trust Funds' fixed assets are accounted for within their respective funds. They are depreciated on a straight-line basis with estimated useful lives of 30-50 years for buildings, 20 years for improvements and 4-12 years for equipment.

The State's general fixed assets are not depreciated in the General Fixed Assets Account Group. When purchased, such assets are recorded as expenditures in the governmental type funds and Expendable Trust Funds.

Higher Education Units' fixed assets are accounted for in the Investment in Plant Fund and are not depreciated.

Changes in fixed asset (long-lived assets for Higher Education Funds) balances for the fiscal year ended June 30, 1987 follow (in thousands):

	Balance July 1, 1986	Additions/ Transfers	Deletions/ Transfers	Balance June 30, 1987

Total	\$ 378,378	\$ 68,664	\$ 46,490	\$ 400,552

* The beginning balance of other fixed assets was restated to reflect the Montana Historical Society's "best guess" valuation of donated art collections in the amount of \$20 million plus \$6.1 million for the value of library books.

** Purchased and donated art collections held by the University of Montana are not included on the balance sheet. University of Montana officials estimate that the collection is valued between one and ten million dollars.

9. COMMITMENTS

Construction Commitments - At June 30, 1987, the State had \$125.4 million of remaining construction authorization; major long-term commitments under unperformed construction contracts were \$80.4 million. As of June 30, 1987, the State's material projects related to highway and building construction were composed of the following (in thousands):

	Project Authorization	Expended through June 30, 1987	Remaining Construction Authorization
<u>Department of Highways</u>			
Billings District	\$ 6,170	\$ 5,719	\$ 451
Butte District	46,712	44,247	2,465
Missoula District	20,659	14,385	6,274
Great Falls District	6,304	6,011	293
Glendive District	29,098	26,207	2,891
*Miscellaneous Projects	<u>135,899</u>	<u>80,437</u>	<u>55,462</u>
Total Highways	<u>244,842</u>	<u>177,006</u>	<u>67,836</u>
<u>Department of Administration - Architecture and Engineering Division</u>			
Prison Expansion	16,252	15,567	685
U of M Fine Arts Facility	8,600	8,562	38
DNRC Building	7,358	7,169	189
Miles City Fish Hatchery	5,227	1,726	3,501
Dept. of Justice/State Library Bldg.	6,450	6,305	145
MT State Hospital Forensic Building	6,005	3,844	2,161
MSU Museum of the Rockies	6,090	2,852	3,238
MSU Controlled Environment Facility	5,302	4,890	412
MT Tech Engineering/Classroom Lab	5,374	5,225	149
*Miscellaneous Projects	<u>87,118</u>	<u>40,504</u>	<u>46,614</u>
Total Buildings	<u>153,776</u>	<u>96,644</u>	<u>57,132</u>
Total Construction Commitments	<u>\$ 398,618</u>	<u>\$ 273,650</u>	<u>\$ 124,968</u>

* Less than \$5 million per project

Proprietary Fund Types' Commitments - Fixed budgets are legally adopted in Enterprise and Internal Service Funds (excluding depreciation, compensated absences and bad debt expense). Current year appropriations may be committed for goods/services that are not received as of fiscal year-end. These executory commitments are included in unreserved retained earnings in the accompanying financial statements as follows (in thousands):

	AMOUNT
<u>Enterprise Funds</u>	
Liquor Stores	\$ 3
Employees' Group Benefits	10
State Lottery	6
Economic Development Board	1
MUS Group Insurance	2
Historical Society	1
Fire Services Training School	2
Total Enterprise Funds' Commitments	<u>\$ 25</u>
<u>Internal Service Funds</u>

Central Stores	31
Commerce Central Services	5
Investment Division	59
Prison Industries	<u>13</u>
Total Internal Service Funds' Commitments	<u>\$ 1,928</u>
Total Proprietary Fund Types' Commitments	<u>\$ 1,953</u>

10. RETIREMENT SYSTEMS

The State contributes to nine retirement systems - seven as an employer and two (MPORS and FURS) as a non-employer. All retirement plans (except VFRS) are defined benefit plans. The number of years required to obtain vested rights varies among the systems. Contributions to each system are actuarially determined and percentage contributions are set by law. All systems provide early retirement options, death benefits, termination payments (except VFRS) and disability benefits. Additionally, each system functions uniquely as described below:

Public Employees' Retirement System (PERS) - This mandatory, multiple-employer, cost-sharing system provides retirement services to substantially all public employees. Based on gross wages, contributions are 6% for employees and 6.417% for employers. Benefit eligibility is age 60 with at least 5 years of service; age 65 regardless of service; or 30 years of service regardless of age. Actuarially reduced benefits may be taken with 25 years of service or at age 50 with at least 5 years of service. Monthly retirement benefits are determined by taking 1/60 times the number of years of service times the final average salary. Members' rights become vested after 5 years of service.

Teachers' Retirement System (TRS) - This mandatory, multiple-employer, cost-sharing system provides retirement services to all persons employed as teachers or professional staff of any public elementary or secondary school, vocational-technical center or unit of the university system. Based on gross salaries, contribution rates for the employee and employer are 7.044% and 7.428% respectively. Eligibility is met with a minimum of 25 years of service or age 60. The formula for annual benefits is 1/60 times creditable service times the average final compensation. Rights are vested after 5 years of creditable service.

Municipal Police Officers' Retirement System (MPORS) - The State acts as a non-employer contributor to this multiple-employer, cost-sharing system which covers all municipal police officers of cities covered by the plan. Member contribution is 6% of salary for members employed prior to July 1, 1979 and 7.5% of salary for members employed on or after July 1, 1979. City contributions are 13.02% of active policemen's salaries. The State contributions are 15.06% of active policemen's salaries. The State's contribution is funded from the premium tax on motor vehicle property and casualty insurance policies. Minimum years of service are 20 for benefit eligibility. There is no minimum age if employed on or before July 2, 1975; age 50 if employed after that date. Any officers meeting the service year requirements shall receive 1/2 their final average salary. For service greater than 20 years, the allowance will increase 1% of the final average salary per year of additional service up to a maximum of 60% of final average salary. Rights become vested after 10 years of service.

Firefighters' Unified Retirement System (FURS) - The State acts as a non-employer contributor to this multiple-employer, cost-sharing system which was established for fully-paid firefighters. Member contribution is 6% of base compensation and city contributions are 13.02% of total annual compensation. The State contribution is 22.98% of the total annual compensation for all firemen and is paid out of the premium tax on insurance risks. Minimum age is 50 and minimum service is 10 years for benefit eligibility. For members hired prior to July 1, 1981, for the first 20 years of service, the monthly service retirement benefit is equal to 1/2 of the final monthly compensation received. An additional amount equal to 1% for each year in excess of 20 can be received, up to a maximum retirement benefit of 60% of the last monthly compensation earned. For those hired after July 1, 1981, the first 25 years of service earn 1/2 of the final average salary as a service retirement benefit. For each year in excess of 25 (up to a maximum of 5) the service retirement benefits increases to 2% of final average salary. Rights become vested after 10 years of service.

Sheriffs' Retirement System (SRS) - This multiple-employer, cost-sharing system covers all persons employed as sheriffs. The member contribution is 7% of salary; county contribution is 7.67% of salary; and the State contributes administrative expenses. Minimum years of service are 25 and minimum age is 55 for benefit eligibility. The service retirement is calculated as follows: 2% of the final salary for each year of creditable service, up to a maximum of 50% of final salary. Any member with 26 or more years of service shall receive the allowance as calculated above plus an additional 1.35% of the final average salary for each year of creditable service in excess of 25 years, up to a combined maximum benefit of 60% of the final salary. After 10 years of service, an employee has a vested right to service retirement benefits.

Highway Patrolmen's Retirement System (HPRS) - A single-employer system established for all members of the Montana Highway Patrol, including supervisory personnel. Member and State contributions are 7.59% and 26.75% of active highway patrolmen's salaries, respectively. There is no minimum age but minimum service is 20 years for benefit eligibility. The service retirement allowance is based on a formula of 2% times the number of years of service (up to 25 years) times the final average salary plus 1% of the final average salary for each year over the initial 25 years of service. Ten years of service constitutes the basis for vested rights.

Judges' Retirement System (JRS) - This single-employer system provides retirement services for all persons employed as a judge of a district court or justice of the Supreme Court. Contribution is 6% for the member, except those members elected or appointed after July 1, 1983 who contribute 7% of their salary; the State contributes 6% of active judges' salaries, district court fees collected equal to 31% of salaries payable to district court judges and Supreme Court justices and 25% of Supreme Court fees. Minimum service is 5 years and minimum age is 65 for benefit eligibility. The monthly retirement allowance formula is 3 1/3% times the

number of years of service (to a maximum of 15 years) times the current annual salary divided by 12, plus 1% of salary for each year of service after 15 years. Five years of creditable service determines the basis for vested rights.

Game Wardens' Retirement System (GURS) - This single-employer system was established for all persons employed as a game warden, including all supervisory personnel. Contribution from the member is 7.9% of salary (optional after 25 years of membership). The State contribution is 7.15% of active game wardens' salaries, plus all collections from fines and forfeited bonds. Minimum age is 55 and minimum years of service are 20 for benefit eligibility. The formula for a service retirement allowance is 2% times the number of years of service times the final average salary. Ten years of service is required for vested right privileges.

Volunteer Firefighters' Retirement System (VFRS) - Established for all volunteer firefighters of unincorporated areas. State contribution is 5% of fire insurance premium taxes collected. This retirement system is required by law to be fully funded and cannot pay benefits unless money is available. Rights become vested after 20 years of service.

All of the retirement systems, except VFRS, are funded on an "entry-age, normal cost" basis. This method establishes a "normal cost" for each member, as well as an unfunded accrued liability. The annual normal cost is the level of percentage of annual salary required to fund the benefits, assuming that percentage has been contributed since the member's entry into the system. To maintain the fund on an actuarially sound basis, the rate of contributions should fund the normal cost in addition to amortizing the unfunded liability over a period of 40 years. The unfunded accrued liability represents the excess of the present value of total liabilities over the present assets of the fund and the present value of expected future contributions for the normal cost.

Actuarial valuations are performed every two years. The valuations were for the period ended June 30, 1986 (1987 for TRS). Hendrickson & Associates prepared the actuary reports for the eight retirement systems - no actuary report is prepared for VFRS. These reports may be referenced for more in-depth information.

The following table discloses various information by retirement system (dollar amounts expressed in thousands) as of June 30, 1987:

1. The Housing Authority provides financing to qualified individuals to purchase residential housing by issuing bonds and carrying federally insured mortgage notes.
 2. The Economic Development Board assists Montana's small businesses and local governments in obtaining long-term, fixed-rate financing through private Montana lending institutions.
 3. The Employees Group Benefits fund receives non-higher education unit employee withholdings and State contributions to the medical/dental self-insurance plan.
 4. The Liquor Division of the Department of Revenue administers the State liquor operations (Liquor Stores). In addition to selling liquor and wines, the division issues licenses and permits to wholesalers and retailers and collects taxes.
 5. The State Lottery accounts for the operations of Montana's lottery which began in June, 1987.
 6. MUS Group Insurance accounts for contributions to the Montana University System's (MUS) medical/dental self-insurance plan.
- * Other Enterprise is composed of the following funds (listed by administering agency):

Department of Agriculture
Beginning Farm Loans
Leaf-Cutting Bee

Fish, Wildlife and Parks
FWP Snowgroomer Rental

Department of Commerce
Health Facilities Authority
West Yellowstone Airport

Montana Historical Society
Historical Society Publications

Fire Services Training School
Fire Services Training

12. DEFERRED COMPENSATION PLAN

Since 1976, the State of Montana has offered a deferred compensation plan which allows employees to set aside a portion of their salary each payday towards retirement while deferring the State and federal income taxes until future years. The payroll deferrals are invested with Nationwide Insurance. All employees of the State are eligible to participate. The plan operates under the sanction of both State and federal laws (Section 457 of the Internal Revenue Code). The deferred compensation is not available to the employees until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts and all income attributable to those amounts, property or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the State (without being restricted to the provisions of benefits under the plan), subject only to the claims of the State's general creditors. In the past, the plan assets have been used for no purpose other than to pay benefits. The State believes that it is unlikely it will use the assets to satisfy the claims of general creditors in the future because of the contractual arrangement with Nationwide Insurance and the State's obligation to participants for their account balance. State statute requires there be no financial liability of the State or a political subdivision for any investment losses incurred by any eligible deferred compensation plan. However, the State does have the duty of care that would be required of an ordinary prudent investor. As of June 30, 1987, the net assets of the plan available for benefits totalled \$40.508 million.

The following is a summary of the increases and decreases of this Employees Deferred Compensation Agency Fund for the fiscal year ended June 30, 1987 (in thousands):

Fund Assets (at market value), July 1, 1986	\$ 32,913
Deferrals of compensation	6,087
Earnings and adjustment to market value	3,826
Payments to eligible participants and beneficiaries	(1,984)
Administrative expenses	(334)
Fund Assets (at market value), June 30, 1987	<u>\$ 40,508</u>

13. CONTINGENCIES

Litigation - The Blackfeet Tribe of Indians sued in 1978 for a declaratory judgment that all taxes on the royalty share of production of oil and gas beneficially owned by the Tribe are invalid. A federal district court dismissed the complaint and the Tribe appealed to the Ninth Circuit Court of Appeals. In December 1982, the Court of Appeals upheld the judgement of the district court. A rehearing was granted and heard before an 11-member panel in November 1983. The district court judgment was reversed. On June 3, 1985, the United States Supreme Court affirmed the Ninth Circuit, rejecting Montana's claim that the taxing proviso in the act of May 29, 1924, applied to oil and gas leases issued pursuant to the Indian Mineral Leasing Act of 1938. The case was thereafter remanded to the district court for further proceedings, including trial if necessary. The parties, however, entered into settlement agreement in July 1987 which, if implemented, will resolve the Tribe's claims. The agreement provides for the payment of \$963,000 to the Tribe by the State upon, *inter alia*, securing releases from certain non-Indian producers who deducted moneys from tribal royalties for the purpose of paying that portion of the challenged taxes attributable to the tribal royalty amount. All required releases have not yet been obtained and the case therefore remains pending. Aside from the tribal claims, various non-Indian producers have initiated State court proceedings alleging the oil and gas taxes are preempted with respect to all production within the Blackfeet, Fort Peck and Rocky Boy Indian reservations. It is also possible these producers may file amended returns to recover additional amounts.

The Crow Indian Tribe filed suit in 1978 in federal district court seeking a declaration that Montana's coal severance and gross proceeds taxes are invalid as applied to the production of coal on the Crow Reservation and to the production of coal owned by the Tribe located in an off-reservation area, known as the "Crow ceded area" or "ceded strip", which lies roughly between the northern boundary of the reservation and the Yellowstone River. The amount of coal reserved falling within these categories has not been precisely determined. The taxes were alleged to be invalid under a variety of theories, of which the most prominent were that the State taxes conflict with federal policy by preventing the marketing of Crow coal and infringe on tribal sovereignty by depriving the Tribe of revenue needed to provide governmental services to the Crow people. In addition to a declaration that the taxes were invalid, the Tribe sought restitution for an amount equal to the severance and gross proceeds taxes paid by Westmoreland Resources, Inc. (Westmoreland), the only company currently mining coal claimed by the Tribe, together with the interest which accrued to the Coal Severance Tax Trust Fund on the amount of taxes paid. At the trial, the Tribe presented alternative recovery theories under which the State's exposure could exceed \$100 million.

In January 1983, the court ordered Westmoreland's future severance tax payments placed in escrow pending the outcome of the litigation. The State has received no severance tax payments from Westmoreland with respect to the coal mined on the ceded strip since the entry of this order. The amount escrowed to date is approximately \$26 million. Prior to 1983, Westmoreland's annual severance tax payments varied from a low of \$5.407 million in 1976 to a high of \$7.078 million in 1979.

On September 10, 1985, the United States District Court for the District of Montana, Billings Division, held that the Montana coal severance tax is valid insofar as it is applied to the production of coal held by the United States in trust for the Crow Tribe on the ceded strip. The court specifically declined to rule on whether application of the State's tax on coal producers on the reservation would be valid. Currently no coal is being mined on the reservation. On June 11, 1987, the Ninth Circuit Court of Appeals reversed the district court's decision and ruled that Montana is preempted from applying its severance and gross proceeds taxes on coal within the ceded strip held in trust for the Crow Tribe and on coal mined on the reservation.

On August 28, 1987, the State docketed an appeal of the decision to the United States Supreme Court. The State believes its positions are meritorious, but the ultimate outcome of the case cannot be predicted with certainty.

The State of Montana and its Board of Public Education are defendants in a suit that challenges the present level and system of funding Montana's public elementary and secondary schools. Plaintiffs charge that the State's school funding system is an unconstitutional denial of equal protection and that the current level of funding fails to provide a "basic system of free quality" education, as is required by the State constitution. The plaintiffs seek a declaratory judgment and injunction or other appropriate relief. The current sources of school funding are various earmarked State revenues as well as revenues from a statewide property tax. Local school boards are permitted to authorize certain limited levies over and above the basic statewide levy without voter approval. In addition, local boards may propose unlimited levies to the voters of their school districts. The State believes that the constitutional challenge is without merit and is actively defending the challenge along with various interested parties who have intervened. The suit was filed in April 1985, and went to trial in May 1987. A decision is not expected to be rendered until January 1988. Should the plaintiffs prevail, the State could be required to fund the school program by an additional \$100 million per year of the biennium, in addition to the current allotment for the program, which is approximately \$490 million. Additionally, plaintiffs have requested that all attorney and court costs related to this action (amounting to \$500,000) be paid by the State following a common trust doctrine.

Federal Assistance

Grants - The State receives federal grants and entitlements for specified purposes which are subject to review and to audit by the grantor agencies. Any disallowances resulting from these audits would become the liability of the State. As of June 30, 1987, the State estimates that no material liabilities will result from such audits.

Food Stamp Coupons - The State had custodial responsibility for \$9,476,750 of USDA food stamp coupons as of June 30, 1987, for which the State is liable in the event of loss. In fiscal year 1987, Montana issued \$32,805,167 in food coupons.

USDA Donated Commodities - The State had custodial responsibility for \$1,409,394 of USDA donated food commodities as of June 30, 1987, for which the State is liable in the event of loss. Commodities distributed in fiscal year 1987 totaled \$8,532,880.

Gain Contingencies - Certain natural resource and corporation tax assessments are not reported on the State's financial statements because they are being protested either administratively or in a court of law. As of June 30, 1987, the following assessments (by fund type) were outstanding (in thousands):

<u>Taxes</u>	<u>General</u>	<u>Special Revenue</u>	<u>Debt Service</u>	<u>Nonexpendable Trust</u>
Corporation	\$ 11,340	\$ 4,430	\$ 1,949	\$ -
Coal Severance	5,942	3,127	313	15,636
Metal Mines Tax	288	144	-	-
Oil Severance	-	-	-	-
Gas Severance	273	-	-	-
Resource Indemnity	-	-	-	4,819
Totals	<u>\$ 17,843</u>	<u>\$ 7,701</u>	<u>\$ 2,262</u>	<u>\$ 20,455</u>

Collectibility of these contingencies is dependent upon the decisions of the court or other authorities.

14. SELF-INSURANCE FUNDS

The State of Montana maintains several self-insurance plans. A brief description of each plan and the method of recording transactions are discussed below.

Group Employee Comprehensive Medical and Dental Plan - This plan is fully self-insured, with the State assuming all the risk for claims incurred by employees of the State, elected officials, retirees and their dependents, except for organ transplants which have been reinsured with the Equitable Life Assurance Society of the United States of America. There is no third party coverage. Blue Cross and Blue Shield of Montana administers the plan under contract.

Premiums are collected through payroll deductions, deductions through the Public Employees' Retirement System and self-payment and are recorded as revenue in the Employees' Group Benefits Enterprise Fund.

In July 1987 incurred, but not reported, claims were estimated by Martin E. Segal Company, a consulting actuarial firm, to be \$3,316,000; a liability for \$3,340,900 has been recorded in the accompanying financial statements for these and other estimated claims.

Property Insurance Plans - This self-insurance plan provides coverage for general liability, automobile liability, automobile physical damage, retail liquor stores inventory and inland marine.

The State self-insures the \$100,000 deductible per occurrence for property insurance. The third party pays the next \$50 million per occurrence.

Premiums are collected from all State agencies including Higher Education Units and recorded as revenue in the Administration Insurance Internal Service Fund.

The most recent actuary report, prepared by Coopers & Lybrand and issued for the accident period 7/1/77-6/30/86, estimated that the present fund balance reserve is insufficient by \$38 million.

Montana University System Group Benefits Plan - This plan was authorized by the Regents to provide medical, dental and vision insurance coverage to employees of the Montana University System (MUS). It is best described by the term minimum premium and is a modified form of self-insurance. Under minimum premium, MUS assumes the liability for claims up to the expected annual amount. If claims exceed the predicted amount, the insurance company (United of Omaha) is liable for excess claims. Each month the University System sends United of Omaha approximately 10% of the premium due (hence the term minimum premium). The balance (90%) is held and invested until needed to pay claims. Premiums are collected from employees through payroll deductions and recorded in the MUS Group Insurance Enterprise Fund (Higher Education Auxiliary Fund for the fiscal year ending June 30, 1986). A prior period adjustment has been recorded in the accompanying financial statements to move this activity from the Higher Education Auxiliary Fund to the Enterprise Fund to reflect the MUS administration of the plan and to consistently report all self-insurance activity in the Enterprise Funds. The advantage of a minimum premium plan is that interest is earned on reserves while protecting the plan if claims exceed expected amounts. The incurred but not reported claims are estimated to be \$1,211,698; a liability has been recorded in the accompanying financial statements for these estimated claims.

15. UNEMPLOYMENT INSURANCE COMPENSATION

Unemployment compensation benefits are funded in the State through unemployment insurance taxes levied against employers. The funds collected from this tax are deposited in the Unemployment Insurance Clearing Account and transferred daily to a trust fund in Washington, D.C. The United States Secretary of the Treasury is the trustee of this fund. The moneys are then transferred back to the State's Benefit Payment Account for disbursement as unemployment insurance benefits. Transfers are made weekly at the request of the Montana Department of Labor and Industry.

Prior to 1986, the State's Unemployment Insurance trust fund was insolvent. In order to fulfill benefit payments, the State borrowed from the federal trust fund. The 1985 Legislature passed measures which increased employers' taxes and reduced the amount of benefits paid. These were adopted from the Unemployment Insurance Advisory Council recommendations. As of June 30, 1987, all federal loans had been retired and the State's trust fund had a fund balance of \$35.9 million. The State does not anticipate borrowing from the federal trust fund during the coming biennium.

16. NONEXPENDABLE TRUST FUNDS' INVESTMENT INCOME

Investments are recorded in Nonexpendable Trust Funds using the full accrual basis of accounting. However, certain investment earnings attributable to these trusts are recorded elsewhere, as summarized below:

<u>Nonexpendable Trust Fund</u>	<u>Reporting of Investment Earnings</u>
Permanent Coal Tax	Permanent Trust and In-State Investment Accounting Entities- Investment earnings are reported in an Expendable Trust Fund and distributed 100% to the General Fund for fiscal year 1986-1987. Fifteen percent of total investment earnings, from July 1, 1983 through June 30, 1986, are reported as additional trust corpus. According to State statute, this portion of the trust corpus (\$13.7 million) may be appropriated with a three-fourths vote of each house of the Legislature.
Education	Investment earnings attributable to this trust are recorded in the Nonexpendable Trust Fund, then transferred as follows: 77.5% to the Office of Public Instruction for public schools (67.5%) and vocational-technical centers (10%); the remaining 22.5% goes to the Board of Regents for distribution to higher education institutions. Subsequent to July 1, 1987, the 10% for vocational-technical centers will go to the Board of Regents.
Resource Indemnity	Investment earnings are reported in an Expendable Trust Fund and distributed to the State Special Revenue Fund as follows: 64% is distributed to the following agencies for various projects- Environmental Quality Council, Department of State Lands, Department of Fish, Wildlife and Parks, Department of Natural Resources and Conservation, Department of Labor and Industry, University of Montana, Bureau of Mines, Forestry Experiment Station, Department of Health and Environmental Sciences, Montana State University, Governor's Office, Montana State Library and other entities outside State government; 30% subsidizes water development projects of the Department of Natural Resources and Conservation; and 6% funds implementation of the Hazardous Waste Act, administered by the Department of Health and Environmental Sciences.
Parks, Cultural and Aesthetic Projects	Investment earnings are reported in an Expendable Trust Fund and distributed to the State Special Revenue Fund as follows: two-thirds to the Department of Fish, Wildlife and Parks for the acquisition and maintenance of parks; and, one-third to the Montana Arts Council for cultural and aesthetic projects.
Land Grants	Ninety-four percent of investment earnings are reported in the State Special Revenue Fund for the Office of Public Instruction to distribute to public schools; five percent is distributed to Higher Education Units (Current and Plant Funds); and, one percent to the Department of Institutions (General Fund and Interest and Income Special Revenue Fund).
Real Property	All investment earnings are reported in the State Special Revenue Fund for use by the Department of Fish, Wildlife and Parks to operate, maintain and develop its real property.
Thomas Teakle	Investment earnings are reported in the Private Donations Special Revenue Fund for the Montana Historical Society's library acquisitions.
BN Settlement	All investment earnings are reported in the BN Settlement Expendable Trust Fund.

17. FUND DEFICITS

The following funds have a deficit fund equity as of June 30, 1987 (in thousands):

	<u>Amount</u>
<u>Enterprise Fund Type</u>	
Leaf-Cutting Bee	\$ (1)
<u>Internal Service Fund Type</u>	
Administration - Legal	(3)
<u>Higher Education Fund Type</u>	
General Operating Subfund *	(10,548)

* This deficit is the result of recording compensated absences.

18. STATE COMPENSATION INSURANCE

The payment of benefits to injured workers is funded through employer contributions to the State operated workers' compensation insurance system. At June 30, 1986, actuarial liabilities exceeded assets by \$81,021,967. The 50th Legislature, in Chapter 664, provided for a .3% payroll tax for all employers based on total wages paid. This tax is effective from July 1, 1987 through June 30, 1991. Legislative intent is to alleviate cash flow problems, but this action will not address the deficit. Chapter 464, which changed the benefit structure, will affect only future payments and will have no effect on the prior liability.

At June 30, 1987, it is estimated that the unfunded liability is between \$140 and \$145 million. There are no funds presently available as a contingency reserve.

19. SUBSEQUENT EVENTS

- The Montana Economic Development Board issued \$18 million of Municipal Finance Construction Act Bonds in July, 1987.
- The Montana Health Facilities Authority issued \$16.025 million of refunding bonds for the Bozeman Deaconess Foundation Project on July 28, 1987.
- The Board of Regents issued \$1.445 million in bonds to defease the D.A. Davidson note for Northern Montana College on August 19, 1987.
- The Board of Regents issued \$3.945 million of special purpose bonds in August, 1987 for the University of Montana.
- On July 8, 1987, \$42 million of tax and revenue anticipation notes were issued and are due June 30, 1988.
- Tax and revenue anticipation notes of \$14 million were issued November 3, 1987, and are due June 30, 1988.
- The State lost a class action suit before the Montana Supreme Court which challenged the constitutionality of a statute limiting general assistance to two months during a twelve-month period for able-bodied persons without dependent minor children. There is a \$2 million per year cost to the General Fund.

COMBINING FINANCIAL STATEMENTS/SCHEDULES

The financial statements that follow provide detailed information on the financial position and results of operations, by fund, for each fund type. Budget basis schedules provide comparisons of the legally established budget with actual data on the budgetary basis for expenditures/expenses and transfers out. These schedules were compiled from the Statewide Budgeting and Accounting System (SBAS).

GOVERNMENTAL FUNDS

General Fund - To account for all governmental financial resources except those required to be accounted for in another fund.

Special Revenue Funds - To account for the proceeds of specific revenue sources restricted to expenditure for specified purposes (other than expendable trusts or major capital projects).

Debt Service Funds - To account for resources accumulated for payment of principal and interest on general long-term obligations.

Capital Projects Funds - To account for resources used for the acquisition or construction of major capital facilities (other than those financed by proprietary or trust funds).

GENERAL FUND

The General Fund is used to account for all governmental financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted to expenditure for specified purposes. A brief description of each Special Revenue Fund follows.

State - This fund accounts for money from State sources that is earmarked for the purpose of defraying particular costs of an agency, program or function. The Insurance Reimbursements Fund, reported as an Other Special Revenue Fund in FY86, is now included in this fund.

Federal - This fund accounts for money from federal sources that is used for the operation of State government.

Other Special Revenue Funds:

GSL Program - This fund accounts for resources used to administer federally-insured student loans issued by Montana lending institutions. This fund was reported as part of the Federal Fund in FY86.

Revolving - This fund accounts for resources used to defray reimbursable expenditures.

Assessments - This fund accounts for resources received from miscellaneous assessments charged to private individuals and businesses. The resources are primarily used for wheat, pork and beef research/ marketing and for mitigation resulting from environmental issues with the Colstrip Consortium.

Private Donations - This fund accounts for private donations that are used for the operation of State government.

Interest and Income - This fund accounts for the interest and income from lands granted to State institutions.

DEBT SERVICE FUNDS

Debt Service Funds are used to account for the accumulation of resources for the payment of general long-term debt principal and interest. A brief description of each Debt Service Fund follows.

Coal Tax Bonds - Moneys in this fund are pledged for the payment of principal and interest on all State of Montana coal severance tax bonds.

Long-Range Building Program - This fund accounts for the payment of all long-range building program bonds and interest.

Water Development - This fund accounts for coal severance taxes pledged to retire bonds sold to make loans/grants for water development projects and activities, as prioritized by the Legislature.

Highway Revenue Bonds - This fund accounts for gasoline taxes pledged for payment of principal and interest on bonds issued for the purpose of constructing highways in Montana.

Highways Building Complex - This fund accounts for gasoline taxes pledged for the payment of principal and interest on bonds issued for the purpose of acquiring a site, erecting and equipping the Montana Department of Highways headquarters building complex.

Airport Bonds - This fund accounts for the 1983 "B" bonds that are used to retire the balance of unloaned airport bonds.

Department of Social and Rehabilitation Services (SRS) Building - The building occupied by SRS is owned by the Teachers' Retirement System and is leased to the State through a lease-purchase agreement. This fund accounts for the lease payments to the retirement system.

Renewable Resource - This fund accounts for coal severance taxes pledged to retire bonds that were never issued. Transfer of these funds to the State Special Revenue Fund was authorized to finance renewable resource projects.

Water Conservation - This fund accounts for Water Conservation Bonds issued for four projects: Sidney, Little Dry, South Side Canal and Petrolia.

CAPITAL PROJECTS FUNDS

Capital Projects Funds are used to account for financial resources used for the acquisition or construction of major governmental general fixed assets. A brief description of each Capital Projects Fund follows.

Long-Range Building Program - This fund is maintained to account for resources received and expended for the State's long-range building program. The long-range building program includes costs for the acquisition, construction and improvement of major fixed assets financed by general obligation bonds and interest earned on bond proceeds.

Federal/Private Construction Grants - This fund accounts for federal grants, private donations and federal matching funds that are restricted to general fixed asset construction.

Capital Land Grant - This fund accounts for revenues and expenditures from the capital land grant. Revenues are dedicated for the purpose of constructing capital buildings or additions thereto. Revenues may be transferred to a Debt Service Fund for the payment of principal and interest on bonds issued for capital building construction.

PROPRIETARY FUNDS

Enterprise Funds - To account for operations (1) financed and operated similar to private business enterprises, where the intent of the Legislature is that costs are to be financed or recovered primarily through user charges; or (2) where the Legislature has decided that periodic determination of revenue earned, expenses incurred, or net income is appropriate.

Internal Service Funds - To account for the financing of goods and services provided by one department or agency to other departments, agencies or other governmental entities on a cost-reimbursement basis.

ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that provide goods or services to the public on a user charge basis. A brief description of each Enterprise Fund follows.

Housing Authority - This fund is maintained to account for activities of the Montana Board of Housing. The Board issues bonds and carries federally insured mortgage notes to provide qualified individuals with financing to purchase residential housing.

Economic Development Board - This operation is directed by a seven-member board, administered by the Department of Commerce. This fund accounts for the Board's Industrial Development Bond (IDB) Program and the Montana Cash Anticipation Program. Outstanding bonds may not aggregate greater than \$75 million. This program assists Montana's small businesses and local governments in obtaining long-term, fixed-rate financing through private Montana lending institutions.

Employees Group Benefits - This fund receives employee (excluding higher education units) withholdings and State contributions to the medical self-insurance plan. The State contracted Montana Physicians Service to oversee the administrative functions of the program.

Liquor Stores - This fund accounts for activities related to the sale and distribution of alcoholic beverages within the State. Profits are used to finance General Fund expenditures.

State Lottery - This fund accounts for the operations of Montana's lottery. The first game was played in June, 1987.

MUS Group Insurance - This fund accounts for contributions to the Montana University System's (MUS) medical/dental self-insurance plan.

FWP Snowgroomer Rental - This fund accounts for activities related to providing snowgroomer equipment to snowmobile clubs where users are charged for use of the equipment.

Historical Society Publications - This fund accounts for the Historical Society's sale of its publications. Some profits are transferred to the State Special Revenue Fund to finance artifact restoration and painting conservation costs.

West Yellowstone Airport - This fund, administered by the Department of Commerce, accounts for operations of the airport at West Yellowstone. User airlines are assessed rent and landing fees.

Health Facilities Authority - This operation, administered by the Department of Commerce, began in fiscal year 1984. The purpose of the Authority, composed of a seven-member Board of Directors, is to contain future health care costs to the people of Montana through reduced debt financing of capital equipment and buildings for Montana's non-profit health care institutions. Bonded debt issuances are limited to \$150 million per biennium. The only source of funding is fee revenues generated through loans made from bond proceeds.

Beginning Farm Loans - This operation began in fiscal year 1984 and is administered by the Department of Agriculture. The Montana Agriculture Loan Authority, composed of a nine-member Board, approves loans to qualifying beginning farmers/ranchers. Bonds may be issued by the Authority to finance the operations of this program; however, no bonds have been sold to date. The total amount of bonds outstanding at any one time may not exceed \$40 million. Revenues are generated from application fees and loan origination fees.

Fire Services Training - This fund accounts for revenues from the sale of textbooks, newsletters, patches, pens, caps and educational materials by the Fire Services Training School.

Leaf-Cutting Bee - This fund accounts for fees collected annually from persons importing, possessing or controlling alfalfa leaf-cutting bees. Fees are used by the Department of Agriculture to reimburse costs incurred in certifying that the bees are disease free.

INTERNAL SERVICE FUNDS

Internal Service Funds are used to account for operations that provide goods or services to other agencies or programs of a government on a cost-reimbursement basis. A brief description of each Internal Service Fund follows.

Office Supplies & Equipment - Five internal service funds under the Departments of Fish, Wildlife and Parks (FWP Equipment, FWP Warehouse Inventory & FWP Office Supply) and Highways (Highway Equipment & Highways Photo/Data Processing) are used to account for inter- and intradepartmental sales and use of office supplies and equipment.

Communications - State agencies and private users are assessed a fee for their use of the State's phone system.

Admin. Insurance - The Department of Administration accounts for the State's self-insurance program (including liability, property, flood, etc.) in this fund.

Central Data Processing - State agencies are assessed a fee for their use of centralized data processing, systems design services, records storage and microfilm services provided by the Department of Administration.

Montana State Prison Ranch/Industries - These operations provide employment for inmates. Their products are primarily sold to other State institutions and local governments.

Motor Pool - State employees' transportation is provided by the Department of Highways through a pool of vehicles. Costs of operating the Motor Pool are recovered through rental rates charged to user agencies based on the average operating costs per mile for each class of vehicle.

Admin. Property & Supply - The Department of Administration accounts for intragovernmental sales of office supplies and paper products and federal surplus property sales to State agencies, local governments and certain other non-profit organizations in this fund.

Publications & Graphics - Agencies are assessed a fee for duplicating, typesetting, forms design and graphic arts services.

Buildings & Grounds - Rent proceeds from State agencies are used to pay maintenance, security and landscaping costs for State-owned property.

Local Government Audits - Political subdivisions are assessed a fee for audit services provided them by the State.

Central Services - Funds are used by the Departments of Commerce and Labor for administrative services provided on a cost recovery basis to programs within the departments.

Mail & Messenger - This fund accounts for costs associated with intrastate government mail and package delivery.

Investment Division - This fund accounts for costs associated with operations of the Board of Investments. The Board assists agencies in the investment of State funds. Costs of administering and accounting for each investment fund are allocated based on the dollar volume of investments held by user agencies.

Aircraft Operations - The Department of State Lands accounts for fees charged to users of State aircraft in this fund.

Legal Services - The Attorney General's Office and the Department of Justice charge other State agencies a fee for legal assistance. The Department of Administration funds legal services with intradepartmental fees.

Personnel Training - This fund accounts for fees charged State agencies for training State employees. The fees are used by the Department of Administration to pay instructors and purchase training materials.

OBPP Statewide Audit - This fund, administered by the Governor's Office, administers the appropriation for the Statewide audit.

PSC Audit Reimbursement - The Public Service Commission accounts for out-of-state travel in this fund.

MYTC Employee Meals - Montana Youth Treatment Center (sold in December, 1986) accounted for employee purchased meals in this fund.

# EXPENDABLE TRUST FUNDS

---

Expendable Trust Funds are used to account for assets held by the State in a trustee capacity, where both the trust principal and earnings may be expended. A brief description of each Expendable Trust Fund follows.

**State Compensation Insurance** - This fund accounts for (1) employer contributions to the State-operated workers' compensation insurance system; (2) penalties assessed employers who do not carry workers' compensation insurance; and (3) the payment of benefits to injured workers. Administrative costs of operating the fund are paid from a Special Revenue Fund.

**Unemployment Insurance** - This fund accounts for employer contributions deposited with the Secretary of the Treasury of the United States to the credit of Montana's unemployment trust fund. Unemployment benefits are paid from this fund to eligible recipients. Administrative costs are paid from a Special Revenue Fund.

**Coal Tax Trust** - The Department of Commerce accounts for interest earned on the Instate Investment Fund in this fund.

**Hail Insurance** - Any taxpayer engaged in the growing of crops subject to destruction by hail may participate in the State's hail insurance program. This fund accounts for premium assessments on crop acreage insured, administrative costs and benefits paid by the Department of Agriculture.

**BN Geraldine Settlement** - Deposits from a lawsuit settlement and investment earnings from a Nonexpendable Trust Fund of the same name are to be used for restructuring the Geraldine-Lewistown Line.

**Rural Development** - This fund accounts for programs authorized under the Bankhead Jones Farm Tenant Act. Resources are used by the Department of Agriculture for the purpose of aiding low income rural families.

**Resource Indemnity** - Department of Revenue accounts for all investment earnings of the resource indemnity tax trust in this fund.

**Historical Society General Trust** - Deposits of the principal amounts of various stocks donated by numerous contributors in trust to the Society and the Charles Bair Memorial are accounted for in this fund. The principal can be expended for acquisitions approved by the Board of Trustees.

**Woodville Highway Replacement** - This fund accounts for money paid to the Montana Department of Highways by the Anaconda Company to provide the government of Butte-Silver Bow with traffic facilities to replace the abandoned portion of U.S. Highway 91.

**Coast Trading Trust** - This trust accounts for the money from the Coast Trading bankruptcy. Once the lawsuit is settled, the trust will be distributed to the proper claimants.

**Fullan Estate** - This fund accounts for money bequested to the Teachers' Retirement System to be used for the benefit of retired teachers.

**School for Deaf & Blind** - The School accounts for private donations in this fund.

**State Library Trust** - This fund accounts for a bequest from the estate of a former patron to be expended as needed to benefit services for the blind and physically handicapped.

# NONEXPENDABLE TRUST FUNDS

---

**Nonexpendable Trust Funds** are used to account for assets held by the State in a trustee capacity, where the trust principal may not be expended. A brief description of each Nonexpendable Trust Fund follows.

**Permanent Coal Tax Trust** - This fund, created by Article IX, Section 5 of the Montana Constitution and administered by the Department of Revenue, receives 50% of all coal tax collections. Principal may be expended only upon affirmative vote by three-fourths of each house of the Legislature.

**Land Grants** - The Department of State Lands accounts for lands granted to the State for support of public schools and State institutions in this fund.

**Resource Indemnity** - Taxes paid by persons engaging in or carrying on the business of mining, extracting or producing a mineral are deposited in this fund. Only the net earnings of the trust may be appropriated until the principal reaches \$100 million. Interest earnings are expended from a Special Revenue Fund. This fund is administered by the Department of Revenue.

**Education Trust** - The Department of Commerce administers this fund which receives 18.75% of all coal tax collections. The fund principal is held in trust for the purpose of supporting public schools, vocational-technical centers and the university system in the State.

**Parks, Cultural and Aesthetic Projects** - Two and one-half percent of coal taxes are credited to this fund by the Department of Revenue. Interest income from the trust is recorded in a Special Revenue Fund and is used for cultural and aesthetic projects through the Montana Arts Council and for the acquisition and maintenance of parks by the Department of Fish, Wildlife and Parks.

**BN Geraldine Settlement** - Money is held in trust to ensure the availability of funds to pay Burlington Northern (BN) after a three year time period mandated by settlement of a lawsuit. Investment earnings are transferred to an Expendable Trust Fund of the same name.

**Real Property Trust** - Money received by the Department of Fish, Wildlife and Parks from the sale of real property, from exploration and development of oil, gas and mineral deposits and from lease of department real property is deposited in this fund. Interest is recorded in a Special Revenue Fund and used for developing and maintaining real property of the department.

**Noxious Weed Management** - The Department of Agriculture accounts for revenues and interest earned on fees charged for the control of noxious weeds in this fund.

**Historical Society** - Three funds (Jim Bradley Memorial, Thomas Teakle and Merritt Wheeler) account for memorials, bequests and various other contributions to the Montana Historical Society. Investment income is either expended from a Special Revenue Fund, Expendable Trust Fund or added to the principal. The Charles Bair Trust is now reported as an Expendable Trust Fund.

PENSION TRUST FUNDS

The Pension Trust Funds are used to account for public employee retirement systems. A brief description of each Pension Trust Fund follows.

Public Employees' Retirement System (PERS) - This fund accounts for the accumulation of resources used to pay retirement, disability and death benefits to qualified public employees. This fund also accounts for the administrative costs of the Public Employees' Retirement Division, Department of Administration, which administers the activities of PERS and the following seven retirement systems. These costs are paid from investment earnings on public employee social security withholdings. The system is funded from employer and employee contributions.

Teachers' Retirement System - This fund accounts for resources used and the administrative costs of providing financial benefits to members of the public teaching profession after their retirement or upon becoming disabled. The system is funded from employer and employee contributions.

Municipal Police Officers' Retirement System - This fund accounts for resources used to pay retirement, disability and death benefits to qualifying police officers employed by first and second class cities. The system is funded from member, State and city contributions.

Unified Firefighters' Retirement System - This fund accounts for the accumulation of resources used to pay retirement, disability and death benefits to firefighters employed by first and second class cities and other cities electing coverage. In addition to employer and employee contributions, the State contributes a portion of insurance premium taxes collected.

Sheriff's Retirement System - This fund accounts for member and county contributions to pay retirement, disability and death benefits to qualifying sheriffs.

Highway Patrolmen's Retirement System - This fund accounts for member and State contributions to pay retirement, disability and death benefits to qualifying highway patrolmen.

Judges' Retirement System - This fund accounts for member and State contributions used to pay retirement, disability and death benefits to Montana's judges. The system is also funded from a percentage of court fees collected.

Game Wardens' Retirement System - This fund accounts for the accumulation of resources used to pay retirement, disability and death benefits to game wardens employed by the State. In addition to employer and employee contributions, this fund receives fines and forfeitures generated from fish and wildlife violations.

Volunteer Firefighters' of Unincorporated Areas Retirement System - This fund accounts for benefit payments to qualified volunteer firefighters. Benefit payments are based upon the amount of insurance premium taxes collected in the preceding year.

# **AGENCY FUNDS**

---

The Agency Funds are used to account for assets held by the State as an agent for individuals, private organizations, other governments and other funds. A brief description of each Agency Fund follows.

**Investment Pool** - This fund accounts for idle cash invested on a pooled basis. Investment earnings on State funds are accounted for as revenue in either the fund providing the cash for investment or in the fund from which the earnings will be expended.

**Employees' Deferred Compensation** - State employees may defer a part of their compensation for the purpose of investment. This fund accounts for employee withholdings transferred to investing entities for allocation to employee designated investment plans.

**Land Grant Interest** - This fund accounts for interest and income earnings on nonexpendable trusts administered by the Department of State Lands pending distribution to units of the university system and State institutions.

**Performance Deposits** - This fund accounts for deposits held by the State pending compliance with performance agreements.

**Central Payroll** - This fund accounts for the accumulation of State employees' payroll and withholdings by the State Auditor's Office pending remittance to employees and other appropriate third parties.

**Industrial Insurance Liquidation** - This fund, administered by the Division of Workers' Compensation, Department of Labor and Industry, accounts for surety bonds, converting the bonds into cash to liquidate liabilities as necessary.

**Custodial Accounts** - Monies belonging to State institution residents, students of the School for the Deaf and Blind and participants in the foster children and protective services programs are accounted for in this fund.

**Unissued Warrants** - This fund reports the amount of warrants authorized by agency claims but not written or not mailed by fiscal year-end.

**Child Support Collections** - This fund accounts for payments from parents under the Child Support Enforcement Program, Department of Revenue.

**Unclaimed Property** - This fund accounts for property held by State agencies pending claim by the person entitled thereto. It includes, for example, proceeds from the sale of abandoned property, escheated and undistributed estates, stale-dated State warrants and unclaimed wages.

**Intergovernmental** - This fund accounts for resources that flow through State agencies to federal and local governments.

**A & E Advances** - This fund accounts for monies advanced by other agencies to the Department of Administration's Architecture and Engineering (A & E) Division for minor capital projects. The capital outlay expenditures are recorded in the funds which advanced the money.

**Uncleared Collections** - This fund accounts for resources held pending distribution to other funds and local governments. Amounts due to other State funds have been recorded as a receivable and revenue in those funds.

**Bad Debts** - This fund, administered by the Department of Revenue, accounts for amounts due to the State which have been written off as uncollectible by the receiving agency. The Department of Revenue continues to attempt to collect amounts owing for a period of time after they are deemed uncollectible by the receiving agency.

# HIGHER EDUCATION FUNDS

---

The Higher Education Funds are used to account for all transactions relating to the State's public institutions of higher education, including six university units and five vocational-technical centers. A brief description of each Higher Education Fund follows.

## Current Funds

### Unrestricted

**General Operating** - This fund includes the portion of financial resources that can be expended for general operations and is free of externally imposed restrictions, except those imposed by the Legislature.

**Designated** - This fund includes financial resources associated with general operations but are separately classified in order to accumulate costs that are to be recharged to other funds. It also identifies educational departments' special activities that are fully supported by supplemental assessments and identifies special supply and facility fees that are approved for collections beyond normal course fees and their disposition.

**Auxiliary** - This fund includes those financial resources devoted to providing essential on-campus services primarily to students, faculty or staff where a fee relating to the service is charged.

**Restricted** - This fund includes the portion of financial resources that can be expended for general operations but only for purposes imposed by sources external to the Board of Regents and the Legislature.

## Fiduciary Funds

**Student Loans** - Accounts for monies which may be loaned to students, faculty or staff for purposes related to education, organized research or public services by the higher education system.

**Endowment** - Accounts for monies where the principal is available for investment. Investment earnings are to be transferred to appropriate operating funds pursuant to prevailing administrative requirements.

**Agency** - Accounts for monies where the State acts in the capacity of a custodian or fiscal agent for individual students, faculty, staff or qualified organizations.

## Plant Funds

**Unexpended** - Accounts for unexpended resources derived from various sources to finance the acquisition of plant assets and the associated liabilities.

**Renewal and Replacement** - This fund's resources provide for the renewal and replacement of plant fund assets as distinguished from additions and improvements.

**Retirement of Indebtedness** - This fund accumulates resources for interest and principal payments and other debt service charges, including contributions to reserves, relating to plant fund indebtedness.

**Investment in Plant** - This fund includes all long-lived assets in the service of the higher education unit as well as all associated liabilities.

NOTE: (1) Taxable property in Montana must be assessed at 100% of its market value except mining property and agricultural lands. Mining property is assessed based on net and gross proceeds from mineral production. The assessment on agricultural land is based on productive capacity.

- Taxable value is that against which the mill levy is applied. These values are arrived at by the appropriate ratios found in Montana's Classification Act to the assessed values (e.g., the taxable value of residential property is 30% of its assessed value).
- Assessed value was changed from varying percentages of market value to full market value in 1978.
- The increase in Fiscal Year 1986 was primarily due to a reappraisal from 1978 values to 1982 values.

STATE OF MONTANA  
PROPERTY TAX MILL LEVY FOR STATE PURPOSES

This portion of the property tax levy was developed to provide a non-discriminatory method of financing public education in Montana. The State has statutory authority to levy up to six mills for the support of the State's higher education system. Until 1981, additional levies for equalization of school funding were levied from time to time to cover deficiencies in the school equalization account. The General Fund is now charged with making up any deficiencies in the equalization system. In addition, the Legislature is directed by law to levy at each legislative session a tax of up to two mills on all taxable property in the State to provide for any deficiencies in the General Fund.

Levy Year	Higher Education System	Primary & Secondary Schools	Total Mill Levy
1978	5.94	1.05	6.99
1979	6.00	3.20	9.20
1980	6.00	1.00	7.00
1981	5.65	-	5.65
1982	6.00	-	6.00
1983	5.86	-	5.86
1984	6.00	-	6.00
1985	6.00	-	6.00
1986	6.00	-	6.00
1987	6.00	-	6.00

Each mill represents one dollar of tax levied on each thousand dollars worth of taxable property. The amount of property taxes needed for the year (net levy) is divided by the percentage determined collectible. This gross levy is then divided by the assessed valuation to arrive at the mill levy. For example, 1987's 6.0 mills would levy a tax of \$36.00 on property with a taxable value of \$6,000.

1986	44,595	27,454	17,140	13,171	1.30

- NOTES: (1) Discrete entities for 1985 include State-owned universities and colleges. Prior to 1985 the Montana Board of Housing was also included as a discrete entity. (Information to calculate the coverage for the Montana College of Mineral Science and Technology was not available until 1985 since no yearly audit was required for their revenue bonds exclusive of the college as a whole.)
- (2) Comprehensive information was unavailable prior to fiscal year 1980.
- (3) During 1980 through 1984 net revenues were defined by the bond resolution for the University of Montana's Building Fees Resolution. No gross revenue or operating expenses figures were available for this resolution; therefore, the difference between gross and operating revenues does not equal the net revenue available for debt service each year reported above. This difference is equal to the amount of net revenues defined by the Building Fees Resolution. Total debt service requirements and coverage are not affected.

SOURCE: Annual audit reports for each discrete entity.
